QTS-7

815-850

Vessel is a 40-50 ft Pleasure craft. It has a white hull + superstructure with wood-tone trim. Vessel has recently picked up contraband ~~in a surface transfer from~~ and ~~is~~ out in the ocean less than 1 hr away (not sure if a surface transfer or air drop). Contraband is in storage ^{lockers} in the rear of the vessel along both starboard & port sides. Storage lockers have not very sophisticated (won't hold up to close inspection) false bottoms beneath which is the contraband. Contraband will not be off-loaded for 1-2 days.

Vessel is now docked in a wealthy marina (NFI).

The vessel captain (owner) is a man in his late 40's early 50's, stocky build, graying hair, 5'6 - 5'9" tall. He usually wears a solid blue short-sleeved ~~short~~ sport shirt (not Izod but that style) and white pants.

Assisting this man in this operation were 2 younger, scruffier-looking ^(both with longish) brown-hair men in their 30's. They don't normally work on this boat.

NAME OF VESSEL SOUNDS LIKE "CHRISTA"/"QUESTA".

It is A US Boat with US owner. + normally stays in the SANTA BARBARA ^{PT Conception} AREA.

LOCATION OF MARINA is not clear either highlighted area
